Who is organising this study?

The study is organised by the School of Psychology at the University of Kent. The researchers are Scott Claessens and Jim Everett.

What will I need to do?

Participation in this study will involve reading a short scenario and answering some questions. Please use a desktop computer, laptop, or tablet to complete the survey.

Is the study likely to cause any discomfort or anxiety?

We expect the survey to cause no greater harm than would typically be experienced in everyday life. We will not ask you about subjects that are likely to be sensitive (e.g., negative memories, sexual preferences).

What happens if I wish to end the study early?

You are free to leave the study at any point for any reason. No negative consequences or penalties will be incurred.

Are my responses anonymous?

All responses are fully anonymous and your answers are strictly confidential. No details will be disclosed from which your identity could be traced back.

What happens to the information I provide?

Information generated from this study may be published. In this case, only broad trends will be reported. A summary of the results will be available from the researchers on request. Your responses (fully anonymous) will be used by the research team, and may be shared with other researchers, or made available in an online data repository.

Contacts for further information

If you have any questions about the research or survey, please feel free to contact the researchers at:

Scott Claessens (s.claessens@kent.ac.uk)

Jim Everett (j.a.c.everett@kent.ac.uk)

If you would like to withdraw your data from the study, please contact the researchers with 48 hours of your participation. Please note that once your data have been anonymised for analysis, it cannot be withdrawn.

If you have any serious concerns about the ethical conduct of this study, please inform the Chair of the Psychology Research Ethics Panel (psychethics@kent.ac.uk) in writing, providing a detailed account of your concern.

Please read the following statements and, if you agree, click "Yes I agree" below.

- I have read and understand the information above.
- I am at least 18 years old.
- I understand that my participation is voluntary and that I am free to withdraw at any time without giving any reason.
- I understand that my data will be treated confidentially and any publication resulting from this work will report only data that does not identify me. My

anonymised responses, however, may be shared with other researchers or be made available in online data repositories.

- I freely decide to take part in this study.

☐ Yes, I agree. Take me to the study.

☐ No, I do not agree.

Demographics

Before we begin, please answer some questions about yourself.

How old are you?

How do you describe yourself?

☐ Male

☐ Female

☐ Non-binary / third gender

☐ Prefer to self-describe

☐ Prefer not to say

AttentionCheck

In studies like ours, there are sometimes a few people who do not carefully read the questions they are asked and just "quickly click through the survey." These random answers are problematic because they compromise the results of the studies. It is very important that you pay attention and read each question. In order to show that you read our questions carefully (and regardless of your own opinion), please answer "TikTok" in the question on the next page.

When an important event is happening or is about to happen, many people try to get informed about the development of the situation. In such situations, where do you get your information from?

☐ TV

☐ Facebook

☐ Newspapers

- ☐ Reddit
- ☐ Twitter
- ☐ TikTok
- ☐ Radio
- ☐ YouTube
- ☐ Other

Introduction

Welcome to the study!

In this study, you will answer some questions about another person.

On the next page, we will give you information about the person. Please read the information carefully, as we will ask you questions about this information.

Click Next to proceed.

Vignette

Please read the following information about the person carefully:

Adam has been dating his partner for almost a year, and Valentine's Day is coming up. He knows that many people exchange a card on Valentine's Day containing a love letter to their partner, and he decides to send a love letter to his partner too.

This year, Adam has been closely following developments in technology and has read of people using AI tools like ChatGPT for things like this, either using it to help with writing or getting AI to do the task completely.

Adam decides to write the love letter in the card by himself.

This is what he sent to his partner:

Adam has been dating his partner for almost a year, and Valentine's Day is coming up. He knows that many people exchange a card on Valentine's Day containing a love letter to their partner, and he decides to send a love letter to his partner too.

This year, Adam has been closely following developments in technology and has read

of people using AI tools like ChatGPT for things like this, either using it to help with writing or getting AI to do the task completely.

Adam decides to use AI to help write the love letter in the card. He asks ChatGPT to provide ideas, inspiration, and feedback, but he edits and rewrites the suggestions and finishes writing the love letter himself.

This is what he sent to his partner:

Adam has been dating his partner for almost a year, and Valentine's Day is coming up. He knows that many people exchange a card on Valentine's Day containing a love letter to their partner, and he decides to send a love letter to his partner too.

This year, Adam has been closely following developments in technology and has read of people using AI tools like ChatGPT for things like this, either using it to help with writing or getting AI to do the task completely.

Adam decides to use AI to write the love letter in the card. He asks ChatGPT to write the love letter and copies the output word-for-word, rather than writing it himself.

This is what he sent to his partner:

Happy Valentine's Day, my love.

I don't think I tell you enough just how much you mean to me. Being with you feels like breathing a little easier, like the world is a bit softer just because you're in it. You make the everyday feel special, and somehow you always know how to calm my nerves or make me laugh at just the right moment. I feel like myself with you — maybe even a better version of myself — and that's such a rare and beautiful thing.

I'm so grateful for you — for the way you listen, the way you love, the way you show up, even in the small ways. I hope you know that no matter what, I'm always in your corner. I can't wait to keep making memories together, whether we're off on some adventure or just curled up on the couch. I love you more than I can really put into words, but I promise I'll spend every day trying.

Yours,

Adam

Comprehension

Please answer the following questions about the information you just read.

In the scenario, what did Adam write?

- ☐ An apology note
- ☐ A love letter
- ☐ A job application
- ☐ A blog post
- ☐ None of the above

In the scenario, did Adam use AI to help write the love letter?

- ☐ Yes
- ☐ No

DVs

Please answer the following questions about Adam and the love letter.

Remember, Adam wrote the love letter by himself.

Remember, Adam asked ChatGPT to provide ideas, inspiration, and feedback. He edited and rewrote the suggestions and finished writing the love letter himself.

Remember, Adam asked ChatGPT to write the love letter. He copied the output word-for-word, rather than writing the love letter himself.

How much **effort** do you think Adam put into the love letter?

1
None at all

☐

Debrief

Thank you for your participation in this study.

In this study, we were interested in how people evaluate individuals who outsource different tasks to AI.

Should you have any questions about the survey, do not hesitate to contact the head researcher at j.a.c.everett@kent.ac.uk. If you have any concerns about the ethical conduct of this study, please email psychethics@kent.ac.uk with a description of your concerns.

Do you have any remarks or comments about today's study?

A large, empty rectangular box with a thin black border, intended for the respondent to enter their remarks or comments. In the bottom right corner of the box, there is a small icon of a pencil and a checkmark.
